

Subpart B—Project Management Oversight Services

§ 633.11 Covered projects.

The Administrator may contract for project management oversight services when the following two conditions apply:

(a) The recipient is using funds made available under section 3, 9, or 18 of the Federal Mass Transit Act of 1964, as amended; 23 U.S.C. 103(e)(4); or section 14(b) of the National Capital Transportation Amendments of 1979; and

(b) The project is a “major capital project”.

§ 633.13 Initiation of PMO services.

PMO services will be initiated as soon as it is practicable, once the agency determines this part applies. In most cases, this means that PMO will begin during the preliminary engineering phase of the project. However, consistent with other provisions in this part, the Administrator may determine that a project is a “major capital project” at any point during its implementation. Should this occur, PMO will begin as soon as practicable after this agency determination.

§ 633.15 Access to information.

A recipient of FTA funds for a major capital project shall provide the Administrator and the PMO contractor chosen under this part access to its records and construction sites, as reasonably may be required.

§ 633.17 PMO contractor eligibility.

(a) Any person or entity may provide project management oversight services in connection with a major capital project, with the following exceptions:

(1) An entity may not provide PMO services for its own project; and

(2) An entity may not provide PMO services for a project if there exists a conflict of interest.

(b) In choosing private sector persons or entities to provide project management oversight services, FTA uses the procurement requirements in the government-wide procurement regulations, found at 48 CFR CH I.

§ 633.19 Financing the PMO program.

(a) FTA is authorized to expend up to ½ of 1 percent of the funds made available each fiscal year under sections 3, 9, or 18 of the FT Act, 23 U.S.C. 103(e)(4), or section 14(b) of the National Capital Transportation Amendments of 1979 (93 Stat. 1320) to contract with any person or entity to provide a project management oversight service in connection with a major capital project as defined in this part.

(b) A contract entered into between FTA and a person or entity for project management oversight services under this part will provide for the payment by FTA of 100 percent of the cost of carrying out the contract.

Subpart C—Project Management Plans

§ 633.21 Basic requirement.

(a) If a project meets the definition of major capital project, the recipient shall submit a project management plan prepared in accordance with § 633.25 of this part, as a condition of Federal financial assistance. As a general rule, the PMP must be submitted during the grant review process and is part of FTA’s grant application review. This section applies if:

(1) The project fails under one of the automatic major capital investment project categories (§ 633.5(1) or (2) of this part); or

(2) FTA makes a determination that a project is a major capital project, consistent with the definition of major capital project in § 633.5. This determination normally will be made during the grant review process. However, FTA may make such determination after grant approval.

(b)(1) FTA will notify the recipient when it must submit the PMP. Normally, FTA will notify the recipient sometime during the grant review process. If FTA determines the project is major under its discretionary authority after the grant has been approved, FTA will inform the recipient of its determination as soon as possible.

§ 633.23

(2) Once FTA has notified the recipient that it must submit a plan, the recipient will have a minimum of 90 days to submit the plan.

§ 633.23 FTA review of PMP.

Within 60 days of receipt of a project management plan, the Administrator will notify the recipient that:

- (a) The plan is approved;
- (b) The plan is disapproved, including the reasons for the disapproval;
- (c) The plan will require modification, as specified, before approval; or
- (d) The Administrator has not yet completed review of the plan, and state when it will be reviewed.

§ 633.25 Contents of a project management plan.

At a minimum, a recipient's project management plan shall include—

- (a) A description of adequate recipient staff organization, complete with well-defined reporting relationships, statements of functional responsibilities, job descriptions, and job qualifications;
- (b) A budget covering the project management organization, appropriate consultants, property acquisition, utility relocation, systems demonstration staff, audits, and such miscellaneous costs as the recipient may be prepared to justify;
- (c) A construction schedule;
- (d) A document control procedure and recordkeeping system;
- (e) A change order procedure which includes a documented, systematic approach to the handling of construction change orders;
- (f) A description of organizational structures, management skills, and staffing levels required throughout the construction phase;
- (g) Quality control and quality assurance programs which define functions, procedures, and responsibilities for construction and for system installation and integration of system components;
- (h) Material testing policies and procedures;
- (i) Plan for internal reporting requirements including cost and schedule control procedures; and

49 CFR Ch. VI (10–1–07 Edition)

(j) Criteria and procedures to be used for testing the operational system or its major components;

§ 633.27 Implementation of a project management plan.

(a) Upon approval of a project management plan by the Administrator the recipient shall begin implementing the plan.

(b) If a recipient must modify an approved project management plan, the recipient shall submit the proposed changes to the Administrator along with an explanation of the need for the changes.

(c) A recipient shall submit periodic updates of the project management plan to the Administrator. Such updates shall include, but not be limited to:

- (1) Project budget;
 - (2) Project schedule;
 - (3) Financing, both capital and operating;
 - (4) Ridership estimates, including operating plan; and
 - (5) Where applicable, the status of local efforts to enhance ridership when estimates are contingent, in part, upon the success of such efforts.
- (d) A recipient shall submit current data on a major capital project's budget and schedule to the Administrator on a monthly basis.

§ 633.29 PMP waivers.

A waiver will be considered upon initiation by the grantee or by the agency itself. The Administrator may, on a case-by-case basis, waive:

- (a) Any of the PMP elements in § 633.25 of this part if the Administrator determines the element is not necessary for a particular plan; or
- (b) The requirement of having a new project management plan submitted for a major capital project if a recipient seeks to manage the major capital project under a previously-approved project management plan.

PART 639—CAPITAL LEASES

Subpart A—General

Sec.

639.1 General overview of this part.

639.3 Purpose of this part.

639.5 Scope of this part.
